

MOCET Communicator mini™

Amazing HD telephone dock for your iPad mini, iPhone and iPod touch

IP3093L-C

The MOCET Communicator mini model IP3093L-C is an innovative audio accessory for your iPad mini, iPhone and iPod touch that improves comfort, quality and privacy when using social networking apps like Skype and FaceTime and unified communications apps like CounterPath Bria, Polycom RealPresence, and Cisco Jabber for iPad. The Communicator mini is super simple to setup and use and sounds amazing with its built-in HD quality handset and speakerphone. An optional external conference microphone set (IP-MIC) ensures that all parties on a conference call can be heard.

The adjustable stand and built in fast charger of the Communicator mini makes finding a comfortable viewing angle for long video conferences easy and keeps your iPad mini or iPhone or iPod touch charged up and ready to go for all day use. There is even an USB host port to charge another mobile device.

Like the original Communicator, the Communicator mini supports native direct audio for amazing HD audio and the Communicator API, which allows partners integrate support into their apps to directly control the Communicator mini hardware including buttons, LEDs, application launching and audio routing making it the perfect development platform for custom enterprise or vertical market applications. The Communicator API SDK is available separately.

-  Superior audio quality, comfort and privacy with HD handset
-  View in comfort with the adjustable stand angles from 0° to 120°
-  Charge your iPad mini or iPhone 5 and another mobile phone simultaneously
-  More enjoyable stereo music with optional external speaker
-  Amazing experience with thousands Social Networking and Unified Communications apps
-  Native HD direct audio and Communicator API support for integrating hardware control into leading apps

MOCET
